on the front cover

ON THE COVER: The Supreme Champion pageant at World Dairy Expo is a sight to behold as one by one the champions enter the ring under the spotlights. This year representing the Ayrshire breed was Palmyra Predator B Ruthless-ET exhibited by Kurt Wolf and John Cannon and led by Michelle Wolf. The Grand Champion Milking Shorthorn was Lazy M Wildside Genette-EXP exhibited by Peter Vail and led by Mike Meier. Congratulations to these winners and all those who walked the tanbark trail this fall. The national Fall show results are in this issue.

Special note: Beginning in 2023 The Angle will be published four times per year. See the update schedule and advertising rates on page 67.

Executive Director's Column . . .

As we head into the holiday season, I'm taking a look back over the year and taking stock of our successes and failures. The greatest successes for the Ayrshire breed and our Association are our people. We've been in a transition period in the ABA office with staffing, and you've given us grace when you could've shown

your frustration. We appreciate you all so much! We currently have a lovely young woman named Cierra Johnson who is now working with registrations and transfers. I look forward to you all meeting Cierra and getting to know her as we move forward.

We've been telling you for awhile that we're working on improving our technology at the office. I'm so happy to tell you the light is at the end of the tunnel. I'm looking forward to testing the upgrades to our database and realize some efficiencies we desperately need. The next year is going to be exciting on that front!

This year's national show season was phenomenal. We added two new national shows to our line-up of approved national shows, and the volunteers who put them on were amazing. Again, our people are second to none!

The ABA puts great time and promotional dollars into having a positive presence at the World Dairy Expo. Our booth is in a prime location, and we've greatly benefitted from that. Did any of you happen to see the Hoard's Dairyman coverage of all of the breed grand champions? The Ayrshire champion did us proud! Palmyra Predator B Ruthless-ET out-produced all of the other protein breeds with only the Holstein having a higher record. "Ruthless" is Excellent-93 and made 28,679M 6.1% 1742F 2.9% 837P at 3-02 in 305 days. She is also a great testimony on how true our Ayrshire breed transmits. Her dam, "Ruth" was an elite cow, 3x Unanimous All-American and 2x World Dairy Expo grand champion. What great breed promotion!

US Ayrshire Breeders' Association also hosted the mid-term meeting for the World Ayrshire Federation during World Dairy Expo. It was our honor to host representatives from around the world while we shared ideas and knowledge on how to move the Ayrshire breed into the future. The highlight of the meeting was the formation of an Ayrshire world-wide data exchange committee. The overall objective is to share data to increase the reliability of international Ayrshire genomic evaluations. The UK Ayrshire Society presented an invitation to all Ayrshire enthusiasts to attend the next World Ayrshire Conference June 30 – July 19, 2024. We encourage all of our US Ayrshire breeders to attend this conference!

What ideas for you have for 2023? We hope you'll include participating in the REWARDS program as part of your breeding plan. The application is printed in this issue. If you need help deciding if this program is for you, give me a call or drop and email so I can offer ideas.

Happy holidays! ■

The President's Message . . .

The Expo Report

World Dairy Expo is in the books for another year! And what an Ayrshire show it was! As I write this article, I am on my way home from Madison, hoping to reach New York State by way of Atlanta Georgia. Wrong direction! I know, but that is where the plane is

taking me. I do, however, have high hopes of getting back to New York State sometime tonight.

This year's Expo show was one of the best ever, with nearly 300 (three hundred) head shown. The calf classes were huge, and the heifer classes ran late into the night. The quality was deep and outstanding. Due to the large numbers, the heifer show was one day and the cow show followed the next day. A "Ruth" daughter, owned by Kurt Wolf, was Grand Champion. Has the champion of the Expo ever been the daughter of a Champion? I guess blood lines do matter!

Another high-lite of Madison, was the Ayrshire Sale. The sale boasted an \$11,000 (eleven thousand) dollar top and over a \$5,800 (five thousand eight hundred) dollar average. The sale had spirited bidding with Lynn Lee as auctioneer and pedigrees by Greg Evans, all in front of a standing room only crowd of bidders.

I spent as much time at the Ayrshire booth as possible. It is a great place to visit with old friends and meet new ones. The Madison booth makes a great meeting place for Ayrshire people and is one of the best on the grounds. It is strategically placed right at the front door of the colosseum. Ayrshire pens and wall posters were very popular handouts from the booth. Our Association also hosted the Ayrshire World Federation meeting at Madison. It gave us an opportunity to meet Ayrshire enthusiasts from around the world. A

World Conference is being planned to be held in the U.K. in 2024.

I have attended 3 (three) national shows, 2 (two) regional shows and several county fairs this year. The Ayrshire shows have all been very strong. The New York Summer Spectacular was one of the strongest shows I visited with many great winners. It was wonderful to see all the people in the Ayrshire family.

As I reflect on the many shows I have attended this year, I am so pleased and excited to see the progress the Ayrshire breed has made over the last 20 (twenty) or so years. The udders have improved, the feet and legs are much better, and the cows are much sharper and more dairy. I also noticed some animals have less strength and stature. My thought is that our chief rival is the Holstein cow, so we need to be careful not to lose the Ayrshire strength. It is what makes Ayrshires more durable and able to "roll with the punches". That said, dairyness and milk are super important attributes and need to be incorporated in our breeding programs, but with a watchful eye. As I look back on the 2022 shows, I am proud to be President of the U.S. Ayrshire Breeders' Association and of what Ayrshire breeders have accomplished in a relatively short period of time. I look forward to seeing the continued progress and know the Great Ayrshire Cow can hold her own in ANY competition. ■

My Best to All of You,

Tom Gillette

PRESIDENT'S CORNER . . .

Congratulations to all our national show exhibitors this year. The AMSS brought quality animals to each show and represented our breed well. Exhibiting animals at national shows helps promote the Milking Shorthorns breed and your own farm. Hundreds of people see our animals; the marketing and advertising related to the shows generates interest in our breed and, ultimately, the buying and selling of Milking Shorthorn cattle.

I would be remiss if I didn't also say thank you to those who stay home and maintain the farm while others are attending the shows. The work on the farm is just as important as being at a national show. There is no doubt - it takes a team!

As we approach the end of 2022, I want to share the following reminders:

- As we are all aware, costs continue to rise in nearly every domain. The AMSS Express Program fees will increase in 2023.

Other program fees may also see slight increases in 2023. Updates will be posted soon on the website and Facebook. These updates will also appear in the next issue of the Angle in 2023.

- Starting in 2023, the Angle will only be published four times a year. We are currently reviewing the publication schedule. We hope breeders will consider advertising in 2023. There is an article in this issue of the magazine about the importance of advertising.

- Many announcements, updates, and other important information can be found on the AMSS website. We also are very active on Facebook. If you have story ideas for the Angle, need help locating a form/application, or have any questions, please reach out to Kathy or Kate.

I want to thank all past and present

board members who have given many hours to make this breed what it is today. If you are interested, please consider running for the board in June 2023.

A special thank you to Kate and Kathy who keep our office running smoothly. We couldn't do it without them.

As we reflect upon the holiday season, please take time from your busy schedules to remember the many blessings we are granted. Be healthy, enjoy your family and friends, and celebrate the season with thankfulness.

Let's keep the Red, White, & Roan a strong breed.

Merry Christmas and Happy New Year to all! ■

FROM THE EXECUTIVE SECRETARY . . .

"The most beautiful things in life are not things. They're people and places and memories and pictures. They're feelings and moments and smiles and laughter."

I hope, as Milking Shorthorn breeders, exhibitors, and spectators this quote rings true for you.

My family and I made a decision to sell a Milking Shorthorn heifer at the beginning of 2022. She was purchased by a new Milking Shorthorn junior member. Throughout the summer and fall we, as a family, were able to be part of the junior breeder's journey. Watching the junior and her animal

grow together was one of the best feelings I have ever experienced. I have heard stories this fall of youth becoming involved in Milking Shorthorns which gives me great hope and excitement in the future of our breed.

Moreover, I was having a conversation with a semen rep last week. We were talking about our jobs -- both of us truly enjoy our jobs -- with some days being better than others. He talked about how he feels the Milking Shorthorn breed has changed so much in the past few years. He expressed how exciting it is to be part of a breed that is still building the foundation for the future. He said, "the future is bright, with the best yet to come." I think there is so much truth in his words. The future is indeed bright!

I would like to thank Michelle Upchurch for the work she has done with DNA and genomic testing. Going forward, any questions regarding DNA and genomics can be sent to myself. Kathy and I will be handling all of the work done for both DNA and genomics. We continue to do a lot of testing. As a reminder, if you have re-

ceived a random test kit in the mail, please get the test completed. Breeders who have conducted their own genomic testing please share those results with the society.

Here are a few additional updates:

- The board will review the Express program at the December board meeting.
- Beginning January 1, 2023 classification prices will increase.
- Starting in 2023, the Angle will be published four times a year.
- We are hoping to begin testing of the ABRI database in a few weeks.

Look for more information on these topics to be posted on the website and on Facebook soon.

As I spend time with my family during the holidays, I am grateful. Grateful that I am part of the Red, White, and Roan. Thank you to everyone who has welcomed me into this great group of Milking Shorthorn enthusiasts. Enjoy all the moments. ■

Kate Gulley

DNA & GENOMICS TESTING

takes at least a month from the time hair is received at each lab. Each test is conducted at a separate lab, which is why two hair samples must be submitted.

For more information,
email amssgenetics@milkingshorthorn.com
or executive-secretary@milkingshorthorn.com

Mission Statement: To recognize and welcome the diversity of the Milking Shorthorn as a unique feature of our breed, distinguishing it from all other breeds in the United States. To encourage each breeder to use all the Society programs which will benefit them individually and respect the rights of other breeders to have a different goal and to use different programs. To administer the Society to effectively use the information generated by the breeders to aggressively market our breed.

The last couple months have been eventful for me. As your AMSS ambassador, I attended the junior show of the Northeast National, the open show of the All-American National Milking Shorthorn Show, and the International Milking Shorthorn Show. As I write this article, I am also finalizing my plans to attend the North American International Milking Shorthorn Show.

As I sat ringside at each national show, I was amazed and proud of the quality of Milking Shorthorn animals. The breed is most certainly making strides and I am happy to be part of it. I have had a great experience serving as the Milking Shorthorn Ambassador and I am looking forward to the final national show in Louisville, KY.

The junior board, and advisors, are scheduled to meet via Zoom shortly after World Dairy Expo. I'll share more about what was discussed during this meeting in the next issue of the Angle.

Congratulations to all champions and class winners from the national shows. Good luck to all the exhibitors at NAILE. ■

*Respectfully submitted,
Jack P. Achen*

YOUTH SPOTLIGHT

FROM THE JUNIOR REPORTER

Hello! My name is Joseph Achen and I am currently serving as your AMSJS Vice President. I am the 18-year-old son of Craig and Cindy Achen and I am the brother of 10 other siblings (Jessica, Emily, Jacob, Rachel, Roxann, Annie, Christy, Nicholas, John, and Jack). I live in Little Falls, Minnesota and attend Royalton High School. My hobbies are cooking, playing basketball, working with cattle, and spending time with family & friends. Other than being active in the Milking Shorthorn Society, I am active in my school's FFA, BPA (Business Professionals of America), Basketball, and the Minnesota Honor Society. Outside of school, I am the Vice President of my 4-H club, and a member of my church's youth group.

On the farm, Cherrywood Milking Shorthorns, I am in charge of milking cows morning and night, along with feeding calves. I spend most of my time on the farm feeding, leading, and washing the heifers daily. My favorite chore on the farm is feeding the weaned calves' grain because they are always so excited!

The most special memory I have with each of my cows is breaking them to lead as a young heifer and being part of that wonderful journey together. It is such a rewarding experience to spend countless hours with a

heifer then taking her into showmanship and having success. I love being able to look back to point A and see how far they have come. This past summer, I participated in the Dairy Showcase at Minnesota State Fair. This contest is a combination of competitions such as showmanship, an interview, class placing, knowledge bowl, and an application, in which they combine these scores based on how well you did to determine the winner. The top 25 finalists are highlighted, and I was gratefully awarded 3rd place and \$3,200! I could not have been prouder with myself and my heifer, it was truly a dual effort between me and my heifer. I won this very special award with my spring yearling heifer named Radian!

The Milking Shorthorn breed is very special to me because it is the glue that holds the Achen family together. The shows and other dairy events are ways that allow my large family to meet and spend time together!

The Milking Shorthorn breed has allowed me so many great opportunities and friendships. I have been able to meet and work with kids my age from around the country who share the same interest as me and that is pretty cool! ■

reporter*

Back to Our Roots

*Recent
board decision
is growth in the
right direction*

By Stuart Rowe

Milking Shorthorn Breeder
Former AMSS Director
Former AMSS Executive Secretary
Founding AMSS Board Member

It is with great personal satisfaction that I commend the AMSS Board of Directors for its recent decision to return the Genetic Expansion Program to a level that more closely reflects its original intent. As the lone remaining living member of that founding group, I suppose I am entitled to make such a statement without fear of contradiction! The August 8th letter from President Marcia Clark regarding AMSS Herd Book rule changes that was sent to all AMSS members was like a breath of fresh air to this fading old MS breeder. When the Milking Shorthorn breed was officially recognized as one of the six dairy breeds in the Purebred Dairy Cattle Association, along with many other owners of Milking Shorthorn cattle I was looking for ways to breed for DAIRY rather than continue dual-purpose Shorthorn cattle. In fact, I was determined to either "change our breed or change breeds" (the name of an article I had written for *Hoard's Dairyman*), if I was going to make a living as a dairy farmer.

I had just been elected to my first term as an AMSS director in April 1963, and was somewhat intimidated by the distinguished elderly gentlemen, in dress hats, double breasted suits and ties, in the smoke-filled conference room, and wondered how I would fit in. Fortunately, young Ray Schooley was the executive secretary and Sam Yoder, near

my age and good friend and fellow baseball enthusiast, also was recently elected to the Board so I soon felt very comfortable. I was delighted to be involved with these knowledgeable board members all seeking improvement in our Milking Shorthorn breed. With Sam and Harold White's father both on the board and owned delicatessens, we were well supplied with treats during our meetings - I did learn that Sam's "Kick-a-Poo" concoction went down like fruit juice but had a real kick!

During those early 1960 years, red progeny of the black and white Holsteins was being discarded by dairymen, and director John C. Gage bred some of his cows to a red bull he purchased. Actually, I was fortunate to visit the Gage farm in Kansas while driving home after the AMSS convention in Springfield, MO, and I was quite impressed with the daughters of his MS cows sired by a red Holstein bull. Here in California, we also saw red Holsteins occasionally, and were already breeding some of our low-end producers to Red Holstein bulls. My brother and I went to a dispersal sale hoping to buy a grade red cow with two records over 1,000 lb.'s of butterfat and was deemed an Excellent unofficially by a Holstein classifier. Unfortunately, we were outbid by a certain mink breeder from Wisconsin who added

her to his growing "Colorstein" collection. That cow would become "Grand" at the second National Red and White Show, several years before it became a fixture at Madison!

During the early 1950's I was enrolled as an undergraduate for five years as an Animal Husbandry major at UC Davis. During that time, I was able to squeeze in two or three graduate level courses, one of which was statistics that dealt with probability as related to breeding practices. I was particularly interested in the genetics classes and even returned to the campus a number of years later for additional courses. I had become quite anxious to help create an official version of a registration program since I felt I likely had more of a formal genetic education in dairy cattle breeding science than any of the other directors. I was pleased I had been elected as a director on the AMSS board in 1963 when the need for a registration program was essential.

During those same years, I'm sure Milking Shorthorn dairymen remember the excitement with news of a superior Illawarra cattle breed flourishing in Australia, promoted by Keith King and others! The same red color and breed characteristics could be accepted directly into the AMSS Herd

SHOWING IS A

Family Affair

FOR THE FREEMANS

Working together brings colored shavings success

By Danielle Nauman

The Freeman family – (from left) Jennifer, Breanne and Dillon – take a moment to celebrate after Heavenly Zora-EXP receives Grand Champion accolades at the International Junior Milking Shorthorn Show. PC: Dairy Agenda Today

BREMEN, Ind. - When it comes to exhibiting their herd of registered dairy cattle, it is all hands on deck for the Freeman family of Nor-Bert Farms in Bremen. That teamwork allowed the family to reap success at the recent World Dairy Expo, when Heavenly Zora-EXP was tapped as both the Senior and Grand Champion of the International Junior Milking Shorthorn Show.

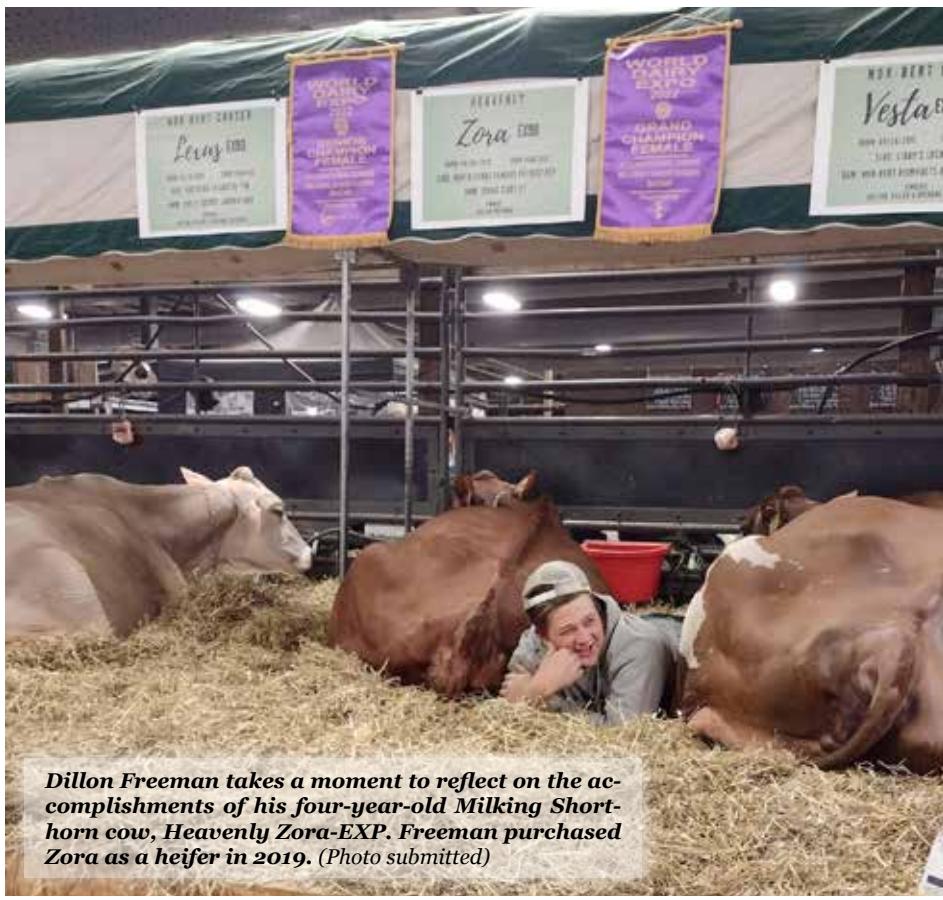

"It was complete happiness," said junior member Dillon Freeman, who exhibited Zora. "All of the hard work that my family has put in paid off. That is pretty rewarding."

Nor-Bert Farms is a fourth-generation dairy farm operated by Roger and Deb Dankert, Jeremy Dankert and Monty and Jennifer Freeman and their children, Dalton, Dillon and Breanne. The farm was established in 1945 by Deb's parents, Norman and Bertha Krathwohl.

Today the farm is home to 150 cows in their commercial dairy, which are milked with robotic milkers. The Freemans keep about 10 cows in their show barn, which they milk with buckets. They also grow 1,000 acres of corn and soybeans.

Showing has been a part of Nor-Bert Farms since Jeremy and Jennifer competed showing dairy cattle in 4-H. The tradition has continued, with Jennifer's and Monty's children taking an interest. "Our family has been showing cows for a long time," Dillon noted. "I showed my first calf when I was two years old."

The farm is a kaleidoscope of color, home to six of the seven major breeds of dairy cattle, with Guernseys being the only one missing from the farm. While Holsteins have called Nor-Bert Farms home from the start, the other breeds each came with a

Dillon Freeman takes a moment to reflect on the accomplishments of his four-year-old Milking Shorthorn cow, Heavenly Zora-EXP. Freeman purchased Zora as a heifer in 2019. (Photo submitted)

special story. “Monty’s family used to milk cows years ago, and they had some Brown Swiss,” Jennifer said. “He missed having them, so we added a few to our herd.”

The first Ayrshire came to the farm when Dalton was just beginning his 4-H career.

“Denny Reinholt had an Ayrshire cow that had won Grand Champion at the Indiana State Fair for several years,” Jennifer recalled. “She had a daughter that was very large for an Ayrshire, and she would swing side-to-side in their stanchion barn setup. They asked if we would be interested in purchasing her. We did, and soon more joined her. If you are going to have one Ayrshire, you might as well have more!”

Breanne expressed a love for Jerseys, and the Freemans had the opportunity to purchase one from the same herd as their original Ayrshire.

Milking Shorthorns have been the most recent addition to the farm, Jennifer shared. “About four years ago, Dillon decided he wanted a Milking Shorthorn. He started out looking for a fall or winter calf, but he fell in love with a summer yearling. That was Heavenly Zora.”

Toll Gate Writes a DEEP, RICH HISTORY

By Michele Ackerman

Among registered Ayrshire farms, few can rival the deep, rich history of Toll Gate Farm.

The original herd was established by the late Preston J. Davenport in Litchfield, Conn., in 1939. He struck a balance between high production and show-winning type, and developed a thriving processing business selling direct to consumers. Thirty-five years later, most of the property was sold and the herd dispersed.

One might have expected the sale to forever close the doors on Toll Gate. But the founder had other ideas when he talked to a reporter in 1981 about the future. Though his two sons did not return to the farm, the two were responsible for six grandsons, of whom two or three were really into dairy cattle and farming. "Far be it for me to say what will happen. But they certainly have the urge to get back into the thing and perpetuate Toll Gate Farms," Preston mused.

That indeed is what happened. His

grandson, Jim, now owns Toll Gate Farm in Ancramdale, N.Y., and gets a hand with its operation from his brothers, Bill, Bob and Scott. The 70-cow milking string includes Holsteins, Jerseys and five Ayrshires developed from a nucleus of 2-3 animals retained from the original Toll Gate herd.

Ayrshires from Toll Gate continue to parade show rings across the country. The Davenports have showed many All Americans, Reserve All Americans and All American nominations in recent years and are long-time supporters of leading shows, including the Eastern States Exposition.

A LEGENDARY FOUNDER

Preston Davenport was a gentle, quiet Yankee farmer who worked with animals of all kinds, from sheep dogs to turkeys to cows. He led by example and established standards of excellence for everything he touched.

In a commentary in the Ayrshire Digest upon his passing in 1984, the author wrote:

"Nothing drew his keen attention more than the quest for Ayrshire breed progress. And though production was always #1 in the breeding program, he was a notable stickler for type in its highest form. One of his greatest challenges as chairman of the Type Committee was to help promote a larger, stretchier type of Ayrshire along the lines of the famous Oak Ridge show herd."

Preston's impact was also felt close to home. "He was my idol, growing up," said Bill. "I learned so much from him and credit my love for Ayrshires, showing, judging and the dairy industry to him."

The patriarch was born in 1903 and graduated from Massachusetts Agriculture College in 1926. He worked for Mountain Farm in Hatfield for six years and then headed to High Brook Farm in Cornwall Bridge, where he helped develop a market for Ayrshire milk and met his future bride, Selma.

In 1939, the Davenports rented a farm

Wins Ayrshire Honors

THE SENIOR AND GRAND CHAMPION FEMALE of the Ayrshire breed section of the Livestock Division of the Eastern States Exposition last week was Toll Gate Bow's Mistress, shown by Toll Gate Farm, Litchfield. The New England Ayrshire Club's President's Cup was awarded to Mr. and Mrs. Preston Davenport, who operate the local farm. Above, left to right, are CUTHBERT NAIRN, a judge from Douglasville, Pa., the prize winning cow, MR. DAVENPORT, MRS. DAVENPORT (holding the President's Cup), and Mrs. LUCILLE DAVIS of Canada.

Preston and Selma Davenport with their first national Grand Champion, Toll Gate Marjorie's Mistress, who earned the honors at the 1955 Eastern States Exposition.

Neshaminy K. Treebet is one of two cows from which most of the Toll Gate herd descended.

of their own in Litchfield on Toll Gate Hill near the “toll gate,” which stood at the entrance to Torrington. They purchased the 16 head of Guernseys already on the farm and soon upgraded them with 22 head of registered Ayrshires from Cocumcussoc Farm of Rhode Island. Cows from the herd won the Ayrshire Milking Derby at the Big E in 1939 and 1941 and set a world record for production at 12,948 pounds of milk and 514 pounds of fat.

The Davenports purchased the farm “on Chestnut Hill” in Litchfield in 1941 along with another lot on the Litchfield-Torrington Road, where they built a processing plant. They capitalized on the benefits of Ayrshire milk - with its soft curd tendency and small fat globules - to market their product as doctor-endorsed infant milk.

They began churning ice cream and opened a dairy bar with a 14-stool counter, six tables and a soda fountain in June 1942. A month later, the government issued a gas rationing levy for the war and business stalled, but by 1946, the country began moving again and customers returned.

Business peaked in 1956, with a summer payroll for the farm, processing plant and dairy bar of 38 people. To meet consumer demand, the Davenports were also processing milk from a dozen other local farms. When they were offered a lucrative price for the processing business, they sold it to focus on the cows.

With extra family time, the Davenports expanded their show circuit. Among their longtime favorites is the Big E, held in West Springfield, Mass., and billed as New England’s Great State Fair. Preston attended the inaugural event in 1916 with his father and sister, despite advice to steer clear because of the polio endemic. He began showing Toll Gate cattle in 1939 and earned his

Treebet’s influence on the breed largely came through her sons. Among the most impactful were Toll Gate Wheel of Fortune and The Count of Toll Gate, both Excellent and double approved.

first national Grand Champion rosette in 1955 with Toll Gate Marjorie’s Mistress. Over the next 21 shows, the Davenports earned 17 champion titles for their male or female entries.

In 1958, Toll Gate Farm accomplished a clean sweep at the Big E Ayrshire Show, winning Junior Champion, Senior Champion and Grand Champion. Sixty-three years later, in 2021, it repeated the feat, taking home banners again for Junior Champion, Senior Champion and Grand Champion.

For his lifelong support of the Eastern States Exposition, Preston was inducted into the Dairy Hall of Fame.

TREEBET: THE QUEEN BEE

Much of the Toll Gate herd traces to two cows: Ardrossan Martyr’s Juno, in the group purchased from Cocumcussoc Farm, and Neshaminy Kingfish Treebet, a matriarch who left her footprint far beyond the farm gate.

Treebet is the result of Preston’s efforts to find the breed’s best linebred genetics. After sifting through volumes of approved sire and dam lists in 1946, one name stood out: Penshurt. The discovery prompted a visit to Neshaminy Farm in Pennsylvania, which had been founded on Penshurt breeding. There, Preston saw Treebet for the first time, two months fresh in her first lactation. As she was a nearly perfect specimen, he became obsessed with bringing her to Toll Gate.

As fate would have it, the owner of the Neshaminy herd passed away shortly after and the herd was dispersed. Treebet was the first to cross the auction block, purchased by the Glen Urquhart Farm of Illinois for a bargain of \$3,000. That day, Preston asked the farm manager, Ray Brown, what he would take for his new “bargain.” After a

sleepless night, Preston offered the asking price of \$5,000 and Treebet was instead headed to Connecticut.

The investment was huge for the time, but it paid off in spades. Treebet produced a world record as a senior two-year-old, topped the National Class Leader list for fat as a senior four-year-old and is the breed’s former all-time lifetime fat champion.

Her genetic contributions, though, far outweigh her contributions to the bulk tank. Treebet gave birth to seven sons by seven different bulls. Toll Gate Wheel of Fortune, her first son, and The Count of Toll Gate, her last, were foundation sires at Toll Gate and marketed commercially to breeders across the country by ABS Global, Inc. Both were classified Excellent and double-approved (production and type) sires. As their dam, Treebet shared this distinction with just one other Ayrshire at the time - her paternal sister, Neshaminy Katie.

Two decades after her purchase, her genetic influence was documented through a new tool: USDA Sire Summaries. In a 1969 evaluation, 17 of the 23 descendants of Treebet bred by Toll Gate were plus-proven. Of her five sons that received a proof, all were approved and plus-proven.

Treebet’s influence was tremendous at Toll Gate as well. Ninety-two of the 102 cows classified in February 1964 were descendants, with an average final score of 87.3. Among the Excellents was Toll Gate Bows Countess, a daughter of The Count.

“I learned how to milk cows on Countess,” recalled Bill. “She was an amazing cow. She made 15,543 pounds milk and 599 pounds fat in her first lactation - a feat for any two-year-old today - and was Grand Champion at Eastern States as a two-year-

continued on page 17

continued from page 13

Two weeks fresh, Zora became the choice of show judge Joe Sparrow to become the top junior-owned cow of the International Milking Shorthorn Show at World Dairy Expo after placing second in the four-year-old class, earning Dillon the opportunity to escort her under the spotlights during the Supreme Champion ceremony.

Winning shows is not something new to Dillon and Zora. As a three-year-old, Zora claimed the honors of Intermediate and Reserve Grand Champion at the Winter National Junior Milking Shorthorn Show and placed fourth in her class at World Dairy Expo. As a summer yearling in 2019, she claimed Junior Champion honors at the National Junior Milking Shorthorn Heifer Show held in conjunction with the National Convention, as well as being named Honorable Mention Junior Champion at the Premier National Junior Milking Shorthorn Show.

"Zora just really keeps getting better every day," Dillon said.

To achieve results like her win at World Dairy Expo takes a family effort, something in which they all take a great deal of pride. "We all put a lot of work into the show animals, it is something that is important to us all," he added. "We work together and when one of us does well, we all do well."

The Freemans have been building their show program through a few key purchases while working to fine-tune their own breeding program. "We focus on using high-type sires with strong maternal lines," Dalton said. "We look for bulls that will increase production while maintaining or adding type to our herd."

After their win on the colored shavings, Dillon was quick to point out he and his siblings have had some great mentors throughout the industry. "There have been lots of people that have helped us out, teaching us how to take care of our show cattle and how to fit them. We have been able to try lots of things, pick out what works for us on our farm and really begin to develop our own program."

The camaraderie and the competition of exhibiting dairy cattle is what keeps the

family coming back for more each year.

"Traveling and meeting up with friends you only see at the shows, and making new ones, is something we all enjoy about showing," Jennifer said. "And being able to hit the shavings with the animals we have been working diligently with for months and years and seeing what they can accomplish ... that is what keeps us driving forward."

Heavenly Zora-EXP took home Senior and Grand Champion honors for Dillon Freeman and his family at the International Junior Milking Shorthorn Show at World Dairy Expo. PC: Dairy Agenda Today

continued from page 15

old in 1962. She lived to be 16 and made more than 180,600 pounds milk and 7,300 pounds fat."

More recently, Bill and his daughter, Megan, have achieved success in the show ring with her descendants. Toll Gate Olympic 2 Sapphire, 5E 93, was named Reserve All American as a junior calf in 1999, and as

a junior yearling too. She has lifetime credits of 131,330 pounds milk, 5,038 pounds fat and 3,976 pounds protein in 2,178 days, and reached 16 years of age.

Toll Gate Modem Selma, 3E 94, has a top 365-day record of 32,181 pounds milk, 1,259 pounds fat and 1,010 pounds protein at 6-0. Her daughter, Toll Gate Predator Selma, was nominated Junior All American Fall Calf in 2018. She classified Very

Good 89 as a three-year-old and has 24,817 pounds milk, 928 pounds fat and 714 pounds protein in 365 days.

A pair of winter calves also showed well. Toll Gate Brownie's Starlet was All American in 1983 and Toll Gate Predator Harbor was Junior All American and Honorable Mention All American in 2018.

THE NEXT GENERATIONS

An event in December 1971 may have been the catalyst for the continuation of Toll Gate Farm. After the brothers' father, Lowell, sustained a broken leg from a bull kick, 11-year-old Jim and eight-year-old Bill were drafted to help with chores. Seeing their commitment, herdsman Marcel Moreau encouraged them to join the local 4-H club. The love affair with cows took root.

Though a good portion of the farm and the cows were sold in 1974, the boys held back several of their favorite heifers. They raised them and subsequent generations on the farm as heifers and then at other locations after they calved.

Both graduated with animal science degrees from the University of Connecticut. Bill's path was agriculture education. He taught at Ellis Clark Regional Agriscience and Technology in Woodbury, Conn., for 33 years, serving as program director for the last 17. He retired in 2019 and now is the 4-H agent for Litchfield County. He purchased the home farm in Litchfield in 1993.

Jim's career path included employment on other farms and building his own herd of primarily Holsteins. In 1986, he and his wife, Karen, rented a farm in Bethlehem, Conn., where they brought together all cattle owned by the family. They settled on the current farm in 1993.

WHAT WAS OLD IS NEW AGAIN

The market for Toll Gate milk today is reminiscent of that for Toll Gate milk in days of old. While some milk heads to Agri-Mark, most of it is shipped to a processing plant the Davenports own with 11 other dairy producers in Kingston, N.Y. Milk is processed as fluid milk, cream, yogurt and ice cream mix and sold under the Hudson Valley Fresh label.

Preston's early milk marketing efforts and the dairy barn of the 1950s have come full circle.

Though milk marketing methods come and go, some things never go out of style. Toll Gate Farm thrives because it never wavers from its pursuit of excellence, a principle set forth by its founder. It operates profitably not because it gets larger - but because it gets better, and pivots when necessary. ■

AMSS Genetic Expansion

continued from page 11

Books. Unfortunately, due to health regulations the Illawarra semen was unable to be imported until several years later. The AMSS board continued to work on rules for a grade-up program to incorporate bloodline genetics from other dairy breeds with appropriate registration rules. I was pleased to be reelected for a second term on the board in 1966 with the need for a registration plan still to be decided.

In 1967 Harry Clampitt took over as executive secretary and he was anxious to proceed with rules on how to register cattle of other breeds in the AMSS Herd Books. I was aware the AMSS board of directors had been instructed to submit a grade-up program with appropriate AMSS registration rules to be presented at the convention the following year and board members knew I was interested in a plan to register other dairy breed bloodlines. To provide advice for the board members, Harry had contacted a renowned geneticist, Dr. Clint Meadows, for his suggestions how to improve yet protect the unique Milking Shorthorn breed characteristics. I was pleased I had taken the classes at UC Davis in advanced genetics and was on the board at this critical time.

The board's grade-up registration committee included me with the then current AMSS president, John C. Gage, and the immediate past president, Keith King, who, because of their stature, understandably became the leading spokesmen in the group. The problem was that it was generally believed that John's approach was too radical and Keith's too conservative and neither seemed particularly interested in a compromise! The stalemate was broken by the influence of Dr. Clint Meadows, a renowned dairy cattle geneticist from Michigan State University. Dr. Meadows suggested an intermediary path that he felt would still allow us to improve the breed's dairy character and milk production without losing our breed identity. I agreed with his plan that the offspring of a Red Holstein cross with a Milking Shorthorn would be eligible for EXP when bred back to a full Herd Book sire. I immediately bought into Clint's program and decided to design and submit my own version in advance of our next committee meeting which would take place for a decision at the 1968 annual meeting.

Therefore, I took it upon myself to write guidelines to register bloodlines of other dairy breeds to submit to the AMSS board in April 1968. I titled the document "QUALIFICATIONS FOR ENTRY INTO THE AMERICAN MILKING SHORTHORN SOCIETY HERD BOOK THROUGH THE

EXPERIMENTAL BREED IMPROVEMENT PROGRAM." I mailed my type-written plan to the staff at the AMSS office so copies could be sent to members of the committee with my proposal prior to the board's discussion at the upcoming convention. It was fortunate I had done so since a sudden emergency on our farm prevented me from attending the convention. Several days later I was delighted to hear that the board had approved my grade-up plan with just a few minor changes! Harry Clampitt had invited Dr. Meadows to speak in support of the plan which he hastily changed due to its passage!!

Once the Experimental Breed Improvement Program was established it came into use immediately. Dr. Young from the University of Minnesota was already working with the Norwegian Red bull NWR-K Schie and decisions were needed how his progeny would be registered, the same decisions becoming necessary with the Australian Illawarra progeny. Not everyone was pleased, however, and shortly after the EXP plan was approved a noted MS breeder came to our farm and criticized me for "mongrelizing" the Milking Shorthorn breed; it wasn't long before he began "mongrelizing" his own cattle! The most critical decisions did involve registering the blood lines of other dairy breeds, yet with Dr. Meadows' advice the color and breed characteristics of the Milking Shorthorn breed indeed were protected, with the result some years later the entire dairy industry recognized Milking Shorthorns as the most improved dairy breed in the 20th century!

Thirty years later when I became the AMSS executive secretary, I was delighted the Experimental Breed Improvement Program, as Dr. Meadows predicted, had indeed changed the Milking Shorthorns into a dairy breed while still retaining the color and breed characteristics. However, in 2001 at the first convention after I retired, AMSS members voted at the annual meeting to start changing the AMSS registration rules, such as EXP x EXP which hastened the loss of breed character and identity. Now twenty years later, some registration rules are out of control. As I said earlier. I am very pleased the current AMSS board is taking steps to retain our Milking Shorthorn breed with its true breed character. At almost age 92 in retirement, I still love the Milking Shorthorn breed and enjoy our MS here on our homeplace where Emily and I enjoy providing entries for great-grandkids to show at the California State Fair!

Greetings from your red, white, and roan friend,

Stuart Rowe

WHY SHOULD I ADVERTISE IN *The* **ANGLE?**

First, a bit of history ...

In 2017, after much disappointment with previous publishers, Dairy Agenda Today (DAT) was contracted to produce a joint publication – combining the *Ayrshire Digest* and the *Milking Shorthorn Journal* – into one magazine: *The Angle*.

At that time, advertising rates were reduced, compared to the previous publisher's prices.

- AMSS Breeder Directory ads were reduced from \$40 to \$30
- Quarter-page ads were reduced from \$225 to \$200
- Half-page ads were reduced from \$375 to \$325
- Full-page ads were reduced from \$515 to \$485

Rates were intentionally reduced to encourage advertising. In addition, all full-page ads were (and still are!) posted on the DAT website for 30 days, which adds a tremendous increase in exposure. The DAT website averages 150,000 views a month. Full-page ads are also featured on DAT's Facebook page – another opportunity for exposure.

*To date, DAT has held these rates steady for nearly four and a half years. **Keep in mind, these rates are much lower than other well-known publications.***

Where we are headed ...

Much like your own personal, home, and farm expenses, DAT will soon need to increase the cost to advertise in *The Angle*.

Printing cost have increased 20 to 24 percent in the last year. Designer fees and sales commissions have remained steady for DAT since 2009 while associated costs have continued to increase. Truly, DAT has done everything they can to keep rates at a level that will allow nearly anyone to advertise. **Breeders have had FOUR YEARS to support this publication at a reduced rate!**

As a result:

- Current ad rates will be available thru the Nov/Dec issue
- Advertising rates for *The Angle* will increase starting January 1, 2023.

Discounts are, and have been, offered since the first *Angle* was published. There is an "Advertising Rates" chart printed in the back of the magazine.

How advertising impacts you ...

Any Marketing 101 course will tell you: **keeping your name in front of customers on a regular basis is important.** Advertising isn't a "one and done" opportunity. Readers must see your material multiple times, via multiple channels, before they can absorb the message.

Frequency is key! It may sound ridiculous, but people need to see/read your farm name, your cows' pictures, your animal's pedigrees, and your animal/semen offerings as many as seven times before they actually recall reading/seeing the information.

Reach is also important. Putting a couple ads on Facebook doesn't guarantee success. Not every breeder is on Facebook. Not everyone checks Facebook daily. Your ads can easily be overlooked.

Multi-channel communication (advertising in *The Angle*, on the AMSS website, on Facebook, via the AMSS Bull book, on the DAT website, and on the DAT Facebook page) will ensure many more eyes on your message.

Another way to think about it ...

It's no secret that advertising helps the AMSS and DAT stay afloat. Our beloved magazine is not self-supporting. We need YOU! Showcase your animals, share pictures of your children, celebrate your success. **If only 25% of our current subscriber base would spend \$200 per year for ONE quarter-page ad it would generate \$45,000 per year in revenue.** Crazy, right?! Think of how much good our societies could do with these extra resources.

THE TIME IS NOW. Are you willing to step up?

A Banner Day

We are firm believers that **merchandising works both ways** — buying and selling — and this is why you see us bidding at sales as we are making purchases to work with new cow families.

But we still very much try and showcase our Homebred Animals.

We had a **BANNER DAY** at World Dairy Expo this year with **all six animals being homebred, 4 in the top ten at the best Ayrshire Show in the country.**

The highlight of Expo was being named the **Premier Breeder of the Heifer Show.**

Words cannot express how cool this is for our small herd, 20 cows and modest facilities, to come home with this banner. And yes, it is hanging in our living room along with a couple of other special awards.

Watch next spring for our sale consignments!

THE 1972 FIRE

at the

North American Dairy Show

It was a quiet Tuesday, October 10, to be exact, at about lunch time. I was clipping, just a few steps from our exhibit in the annex area attached to the "big" barn. And just like that, there it was, the frightening smell of smoke. It's still impossible to organize in my head exactly what happened next. Running back to our exhibit, seeing Aaron Kuske running toward the fire with his green garden hose ... lots of shouting, "untie the animals." Our 2-year-old bull was shackled, he'd have to move that way, no time to unbuckle anything. I remember a worker from the restaurant at the other end of the barn, still in his white chef jacket with an armful of carving knives. Slashing ropes was faster than untying. Seeing all those special show animals being chased, pushed, and prodded out of that huge building into the parking lot still makes my heart race. In the back of my mind, I worried about the huge overhead doors that operated electrically. And, as I looked back toward the barn from the parking lot, we could see and hear the doors start to close.

Many of the exhibitors further down the aisle from the fire had time to lead animals to safety and salvage some personal affects. Most Milking Shorthorn folks had none of that. Show supplies and tack, feed, registration papers, purses, wallets, keys, and clothes were all consumed by the fire. Ohio breeders, the Guckians, were among several folks who lost their pickup, and the Withers lost their camper.

Those of us from Wisconsin tried to stay together locating our animals, checking registration tattoos, and tying them to the fence the best we could. We saw random people from the neighborhood forming human chains across the gates in the fence that luckily enclosed most of the grounds.

According to Hoard's Dairyman.

"There was some confusion in reassembling the cattle. During the evacuation, the animals, including mature bulls, were tied to fences, trees, car bumpers, and every available space. Those 1,467 animals were literally all over the Ohio State Fairgrounds.

From the November 1972 Milking Shorthorn Journal – Harry Clampitt, "National Show Cancelled"

A fire discovered at 12:30 pm, Tuesday, October 10, completely destroyed the cattle barns at the North American Dairy Show, Columbus, Ohio. Something over 1,200 show cattle were housed in these barns; all were saved except perhaps 2 or 3 Holsteins. But very little personal effects were rescued. A good many campers, trailers, and trucks were also destroyed.

Aaron Kuske received hospital treatment for burns on his hands and arms. Faye Voter received blisters on her fingers, and I suspect, on her feet, although she would not take off her shoes. Most of this punishment was received while extinguishing fire on the back of their cattle truck which Faye drove away from the barn.

Enough cannot be said in complimenting the exhibitors, breeders and others in attendance. While there are, understandably, differences among breeders and between breeds, there surely was no evidence of this Tuesday. There were only cattle and cattlemen with nothing in mind except the common need. Without this concerted action, much more would have been lost."

I remember the Red Cross setting up trailers with soup and sandwiches, water, and coffee. But, as farmers we were more concerned about buckets for water and hay for the animals and those things were delivered. As in so many tragic situations, human kindness prevails.

I'm only sorry Harry Clampitt isn't here. I know he put in "hero's" hours that day. I don't know how he did it, but, he secured cash from a local bank to help many Milking Shorthorn breeders with expense money for the trip home; including dimes to make a collect calls home. My call was to my dad, beginning with, "we're ok." He spent a sleepless night, arranging for a semi from Iowa to haul our Wisconsin cattle home. With the loss of vehicles, we had to "double up." There were five gals in the cab of our single seat pickup and five guys squished into the semi sleeper. Our cattle survived and so did we, and that's all that mattered. ■

* * *

The only animal that perished in the fire was a heifer owned by Charles Smoker, Warsaw, Ind. She was in a pen in the annex near where the fire started. Three others died from severe burns and 13 were still under treatment as we went to press.

Reflections *from* KAREN PRATT BODEY

In 1972 I was a Senior in High School. My sister, Polly, was a Junior. Polly stayed with the cattle at the show. I had looked forward to the show as I was the Ohio Milking Shorthorn Princess that year.

That day, I had gotten home from school, and we heard about it [the fire] on the radio. Soon after, Polly called to let us know what had happened. We had some heifers and a bull there. My Dad and Mom went to Columbus to bring them home.

Polly had let the heifers loose and lead the bull out of the building. The fire started in the annex which was a building between the dairy barn and swine building on the fairgrounds. Milking Shorthorns were housed in the annex and in the first couple aisles of the dairy barn. Ohio breeders, Bierhups, lost a truck and Withers lost their camper as they both were parked just outside of the annex.

The exhibitors were very lucky, as cattle and people got out safely. It did take a while for some breeders to round up all their cattle on the fairgrounds. We went back the next day to sift through the rubble to see if we could salvage anything, but, we didn't find anything that was salvageable. The devastation was overwhelming. It was several years before the current building was built. It now houses dairy cattle and horses during the state fair.

We were grateful that Polly and the cattle were all ok. We lost all our tack. That following summer, Polly and I had a sweet corn patch. We sold corn to help replace the tack we had lost.

FIRE WAS SET BY YOUTH

Following the fire, a 17-year-old boy admitted starting it in a vacant horse stall between the cattle and hog barns. He intended to divert the exhibitors' attention so he could steal radios and television sets.

IMPORTANT MILKING SHORTHORN UPDATES

• EXPRESS PROGRAM UPDATE:

The American Milking Shorthorn Society's Board of Directors met in Beloit (December 2-3, 2022) to review a variety of topics. The AMSS EXPRESS Program was one important topic that was discussed. After much discussion, the board voted to discontinue the program after 12/31/2022. Increasing costs, combined with declining enrollments, ultimately led the board to determine EXPRESS is not cost effective for AMSS to administer.

There will be no program to replace EXPRESS in 2023, but all herds with a DHIA herdcode recorded in the national office will be eligible for production awards presented in 2024.

- As of 1/1/2023, in order to receive an AMSS production award, all recipients MUST be AMSS members AND on DHIA.

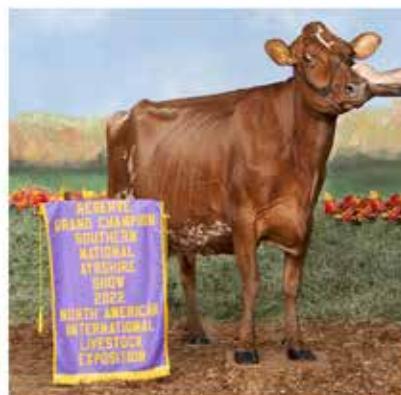

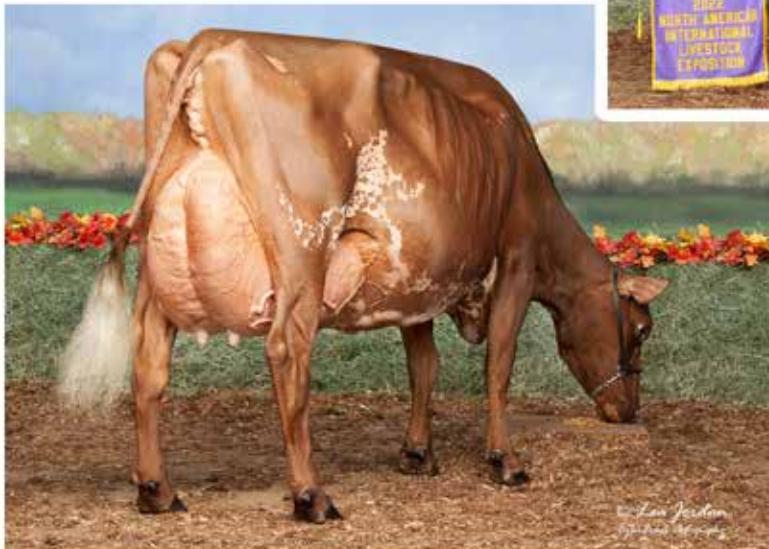

- The AMSS will no longer sponsor the Kitchell Sayre award at World Dairy Expo.

- Thank you to everyone who supported the 2022 AMSS Online Auction. With your help, we raised more than \$2,000 for the AMSS!

- The AMSS fee schedule has been updated to reflect rising costs incurred by the AMSS. While only a few rates were increased, state and national members will receive the greatest discount, compared to non-members. The new fee schedule is effective January 1, 2023.

Winter Beauty

There are strange and mysterious sounds
When the winds of winter blow,
The long nights are crystal clear and cold,
And the fields and meadows are covered with snow.
The stars are frosty against the sky,
And the wind's whistle is shrill,
As the snow blows against the house
And drifts against the hill.
Yet, I like to see during the winter
A white carpet on the ground,
To plod aimlessly in the deep snow,
where deer tracks abound.
I like to feel the stillness
Of a crisp winter's night,
Watching a full moon rise over the horizon,
Exposing a winter wonderland beautiful and bright.

"Winter Wonderland"
by Joseph T. Renaldi

Wishing you a Safe, Healthy,
& Happy Holiday Season

Pride. Profit. Passion.

Building on the Legacy

2023
REWARDS

www.USAYrshire.com

REWARDS is the right solution for convenience and cost-savings to enhance the value of your Registered Ayrshires.

REWARDS Features:

- Completed lactations added monthly to ABA database for pedigrees
- Completed 305-day lactations are eligible to be printed in *The Angle*
- Eligible for ABA Production Awards
- Genetic Evaluation Reports (Blue Book) following releases in April, August and December
- Free online official 3-generation pedigrees. Please request a password.
- Free online subscription to *The Angle*
- Buy one, get one free pricing in the

Ayrshire Yearbook

- Type Traits Appraisal - Classification is on a scheduled 7-month rotation.

Only females are included in the Rewards program for classification. Males 18 months and older may be classified at the published fee schedule rate. REWARDS herds must complete the submission forms to be scheduled for classification.

REWARDS Registrations:

- Includes registrations of animals born in the year of enrollment for no additional fees, up to 65% of the number of cows enrolled in this year's program year. Animals registered beyond this will be charged at \$14 each for those**

4 months and younger. Registration applications received after 4 months of age will incur an additional \$2 fee. The final date for registration applications submission for 2022 enrollment is March 1, 2023.

- Males registered are required to be parentage verified by Genomics testing to receive a registration certificate. Testing fees will apply.
- Beginning January 1, 2023, all Embryo Transfer (ET) offspring must be genomic tested for parentage verification in order to be registered.
- New REWARDS herds will save 50% on registration of animals born prior to January 1, 2023 and not yet registered when the program fees are paid.

REWARDS Ownership Transfers:

- Discounted transfer fees for all transfers in enrollment year

REWARDS Pricing:

- \$100 herd fee
- \$22 per enrolled female, includes milking and dry cows as of December 2022 DHI herd test report**
 - 5% cash discount if application and fees are received by December 31, 2022
 - An additional 5% discount will be given if you own 51 cows or more, and increased to 10% for 101 cows and 15% at 201 cows.
 - Enrollment payment can be made by check, credit card or by milk check assignment. * If you choose to pay by milk check assignment, an application and complete details are available from the ABA office.

REWARDS Explained Further:

- All other Association programs and services will be at regular individual program prices.
- Enrolled herds must meet a minimum Data Collection Rating (DCR) by DHI of 86 or better to be eligible for production awards.
- REWARDS enrollment is offered on a yearly calendar basis. No applications will be accepted after March 31, 2023.
- The primary account holder enrolled in REWARDS must be an ABA member as the program is an exclusive member benefit. Family member accounts may be associated with the primary account and enjoy all of the benefits of the REWARDS member account.
- Animals owned by others housed in a REWARDS herd will be accepted as long as the primary herd has listed all cows in the herd at sign up and paid the full fee. The animals will be listed as one herd.
- Enrollment is simple — just send an application with a copy of your DHI test sheet that shows the number of milking age females in your herd.
- No refunds will be provided.

REWARDS Benefits:

- Let us help you evaluate if the REWARDS Program might be beneficial. Call (614) 335-0020.

2022

EVENT SALE REPORT

It was a great pleasure to once again host the World Ayrshire Event sale during World Dairy Expo. After a couple hiatus years during the pandemic, an enthusiastic crowd gathered on October 4, 2022 in Madison, WI. The ABA Marketing Committee put together a fantastic promotional event for the breed which yielded a couple new Ayrshire buyers.

In total, 14 lots were sold. The live animals and picks of flushes averaged \$4,820 with the embryos averaging \$721.25 per embryo.

Lot 2 topped the sale at \$11,000. This pick of flush is due in March 2023, and the buyer, Lucke Holsteins of Hampshire, IL, will make their selection of five Lochinvar heifers. The dam is an EX-91 3-year-old Burdette daughter that was named Intermediate Champion of the 2022 Midwest National Show and Reserve Intermediate Champion at the 2022 International Show at World Dairy Expo. The next dam is the world reknown Margot Patagonie, EX-95, who has All-American and All-Canadian honors. Her top production record is 8-00 349D 26,654M 4.6% 1232F 3.7% 977P. The pick of flush was consigned by the partnership of Kurt Wolf, Epworth, IA and Michael Maier, Stitzer, WI.

The second high-seller was Lot 9, Miss Rejoice Distinct Remedy, a spring calf sired by Distinction. The dam garnered attention during the International Show when she topped the Sr. 2-Year-Old class. Her 2-03 projected record is 26,559M 4.0% 1059F 2.8% 750P. The next dam is the one and only Palmyra Berkely P Ruth-ET, EX-94 2E. "Ruth" has been a 3x Unanimous All-American and 2x International Show Grand Champion at World Dairy Expo. She also has records over 32,000M. The Vanderlaan Family of Cushing, OK purchased "Remedy" for \$7,500. She was consigned by the partnership of Wolf, Tews, Linke and Adams, Epworth, IA.

Two embryo packages sold for \$850 per embryo. One package was consigned by Hefel and Fisher of Epworth, IA. The dam is Family-Af-Ayr Maxxx Dreamer, EX-93 with records to 23,000M. She was the All-American Sr. 3-Year-Old in 2021. This package was purchased by Mark and Becky Brown of Stitzer, WI.

The second embryo package was Prime x Bricker-Farms Gibbs Carvela, now EX-94 3E, with records to 29,000M. She was named Grand Champion of the 2022 World Dairy Expo junior show. These embryos were consigned by Todd and Lynsey Bricker of Salem, OH and purchased by Virginia and Carolyn Lawrence of Nottingham, PA.

The high seller at \$11,000 was a Lochinvar x Precious pick of flush. Pictured from left are Marketing Committee Chairman Damian Ullmer, Seller Michael Maier, Margot Precious, Seller Kurt Wolf, and Cowbuyer Representative Kaleb Kruse. In the box is Pedigree Reader Greg Evans and Auctioneer Lynn Lee.

In Memoriam

KATHLEEN WHITTED

On March 10, 1950 Arthur "Buck" and Jean (Hughes) Whitted welcomed their first child, a pretty little girl that they named Kathleen Valgene. Kathy grew up on a farm and became involved with 4-H showing Milking Shorthorn cattle and also sewing projects at the area fairs. Kathy possessed an artsy talent which included painting, ceramics, hand work and making a custom birthday cake for the celebrant. Kathy loved her dogs, the Milking Shorthorn breed and coins. Kathleen attended the LaPlace and Cerro Gordo United Methodist Churches.

Kathy graduated from Cerro Gordo High school in 1968 and her career path led her to nursing. She attended the Decatur Memorial School of Nursing where she received her credentials as a registered nurse. Kathleen worked many years in the St Mary's ER, spent time as an RN at the Johnson County Hospital in Buffalo, WY, moved back to Illinois and served as an RN in the ER at DMH and started her final leg in nursing when the cardiac unit at DMH was opened. Kathleen retired from active nursing in 2015. Kathy was involved in the Cerro Gordo American Legion Auxiliary Unit 117, the Illinois Milking Shorthorn Society and other organizations that she championed.

Kathy is survived by the light of her life, her son Wade of Cerro Gordo. Her sisters Mary (Terry) Reeves of Oakley, Vicki Mercer of Cerro Gordo and Louanne (Curt) Krause of Como, TX. Kathy loved and spoiled her nieces and nephews: Christina (Mercer) Stock, Jerod Mercer, Trent and Matthew Reeves, Clayton, Theresa, Mikayla and Elise Krause. In addition, Great Aunt Kathy was pretty smitten with Taylar and Mikenzie Mercer, Grady Stock, Levi and Laci Reeves. She loved keeping up with all their activities.

Kathleen shed her worldly body on September 21, 2022 at the age of 72. Kathy was welcomed into heaven by her parents, Buck and Jean Whitted, her grandparents, Herb and Lou Whitted and

Earl and Valgene Hughes, and her brother-in-law, Mike Mercer along with other very dear family members and friends. A Celebration of Life to honor Kathleen was held on Wednesday, September 28, 2022 at the Cerro Gordo American Legion Post.

MICHAEL HALPIN

Michael Paul Halpin, 41, of Buckingham, passed away on November 23, 2022.

Mike was born in Kankakee on August 31, 1981. Son of George M. and Margaret E. (Hills) Halpin, she preceded him in death. Survivors include his father; two sons, Owen and Colt Halpin; one sister, Amy (Todd) Hoffman; two nephews, Bode and Holden Hoffman; and many aunts, uncles, and cousins.

Mike graduated from Tri-Point High School in 1999 and furthered his education at Joliet Junior College. He had a passion for grain farming and showing and judging dairy cattle. Mike traveled across the United States showing his cattle and cultivating lifelong friendships. He was a member of the American Milking Shorthorn Association, Tri-Point FFA Alumni, and many National Dairy Sale committees. He was an avid fan of the White Sox, Blackhawks, and always cheering on his son's baseball teams. Mike always had a smile on his face and was a friend to everyone. You could always count on Mike to be there if there was a party or social event happening.

A private ceremony for family and close friends was held on Saturday, November 26 at 11 a.m. at St. Margaret Mary Catholic Church in Herscher. A celebration of life was also held at Grubbs Farm – 1553 E State Route 116, Kempton, IL. We remembered our beloved Mike (the man of many nicknames) "Magic Mike, Wheels, Spike, Turtle, Hotshot, Simpleton, and Happy Hour" with food, music, and libations.

Memorials in his name may be left to a charity of the donor's choice.

Have you *Herd*?
